Goal: Seeking an opportunity to work as a software developer in an environment where I can make meaningful contributions using what I have learned and also grow in my professional craft

Hard Skills: Node.js, JavaScript, HTML, CSS, jQuery, JSON, AJAX, MySQL, Web APIs, Express Web Framework, NPM

Soft Skills: Enthusiastic problem solver, resourceful team player, relate well to people, detail oriented, able to teach others (have done so in classroom groups)

CLASS PROJECTS

Trivia Quiz: Created “Lord of the Rings” themed online trivia quiz implemented with HTML, JavaScript, and a cascading stylesheet – also featuring a countdown timer.

Responsive Mood Booster: This is a team project. Two classmates and I created a site to display various memes and colorful animations based on user selections. This application leverages web APIs.

CERTIFICATION

Vanderbilt Coding Bootcamp
Vanderbilt University – Nashville, TN – COMING SOON!
